June 10, 2017

Dear FEC General Counsel:

We, along with several other citizens, contributed a small amount of money (our contribution was \$100.00) for the production of a publication called "We Take Our Stand-Montana Writers Protecting Public Lands". The publication was inserted into three Montana papers in support of protecting Montana's Public Lands, and was also posted at the website wetakeourstand.org. We were informed that this group has registered as a committee with the FEC, Montana Writers for Public Lands.

We have now received a Notice from you regarding a Complaint (MUR 7250) filed against us, and all other people who contributed to and organized this effort, claiming that by doing so we have violated the Federal Election laws, including the Federal Election Campaign Act.

We expressly DENY each and every claim against us in the Complaint.

Our involvement was limited to donating funds to the effort. We did not participate in the management or operations of the group or its efforts, and we did not willingly or knowingly intend to attempt to avoid, breach, or run afoul of FEC or any other federal or state laws, regulations or rules. By contributing, we simply were attempting to exercise our First Amendment rights to free speech and free press by speaking out for public lands, and we object to the complainant(s) blatant attempt to intimidate us for having done so or from doing so in the future.

We respectfully request that (1) no action be taken against us in response to the Complaint (filed on May 24, 2017 by Joe Dooling, a long-time Montana political operative), and (2) the Complaint be dismissed with prejudice.

Thank you for your patience and understanding. Please contact us if you have any further questions.

Sincerely,

Dwight B. Short
Lois S. Short
